

# Brief

## Who we are?

Brindley Technologies is a multinational company focused on developing, implementing, testing, supporting, maintenance and managing services for legacy systems and next generation technology solutions.

Brindley Technologies follows a well-defined process methodology, quality management, project management with global delivery centers across the globe and strong delivery skilled team. Our solutions are easy to operate, customize and require easy maintenance and training.

The company is CRISIL S&P rated, ISO 9001:2008 certified for quality management, PCI DSS, ISO 27001:2005 & 27001:2013 (updated) information security management, PMI-PMP certified, ITIL V3 certified and follows SEI CMMi level5 processes and methodology.

Our team is highly trained and well experienced international IT experts from the industry from top 10 companies having more than 20+ year's experience drive the company and provides the best of services to their customer worldwide. We help companies, vendors and clients to take their legacy business and investments made in IT software, IT infrastructure and IT managed services to Next Generation Technologies, better ROI and to be ahead of their competitors.

Company has received many national and international awards & recognition. 70% of our sales are to customers with repeat business. More than 500+ projects and 2000+ assignments delivered with full satisfaction. Over 10 million man-hours applied to the needs of our customers. The company has grown steadily over the years. We are the preferred supplier of many American, European, African, Asian customers.

**Our Motto: Solutions beyond boundaries.....**
